PROFESSIONAL SUMMARY

Senior IT Project & Delivery Leader with 12+ years of experience delivering enterprise-scale digital initiatives across mining/hauling, media, banking, and property industries. Proven expertise in managing complex, regulated environments including ISO 20022 migration, ERP implementation, and large-scale system integration.

Strong track record leading cross-functional teams, managing strategic vendors, and overseeing end-to-end project and release management — from initiation, budgeting, and governance through go-live and stabilization. Currently leading two flagship transformation programs (ERP implementation and a Driver Management System) at a 1,000+ vehicle hauling and mining operation. Recognized for aligning technology delivery with business objectives to ensure compliance, operational stability, and measurable business impact.

CORE SKILL COMPETENCIES

2012 – 2014

S2 – Bina Nusantara (BINUS) University

Master of Information System Management, Information Systems Strategic Management — GPA 3.29 / 4.00

2007 – 2011

S1 – Bina Nusantara (BINUS) University

Information Systems (Bachelor's Degree), Information Systems Analysis and Design — GPA 3.10 / 4.00

WORK EXPERIENCE

PT Lintas Fortuna Nusantara <i>Head of Information Technology (IT Strategist) — Full-time, On-site, Jakarta</i> Feb 2026 – Present	• Lead the end-to-end IT digitalization strategy for a hauling and mining contractor operating across multiple sites in Kalimantan, with a fleet of 1,000+ heavy vehicles. • Spearhead the Fleet Management & AI Driver Monitoring System project: implementing an Advanced Driver Assistance System (ADAS) and dashcam-based AI monitoring to improve driver safety, reduce incident risk, and enable real-time fleet visibility across all operational sites. • Lead the ERP Implementation project: driving vendor selection and deployment of an Enterprise Resource Planning system covering Finance, HR, Supply Chain, and Asset Management, replacing manual, fragmented workflows with integrated, data-driven processes. • Building the Driver Management System (DMS): a centralized platform for driver profiles, compliance records, license validity, and performance scoring, integrated directly with AI monitoring data. • Bridge operational needs with scalable technology — covering vendor evaluation, RFP management, system architecture, and cross-departmental change management.
Bisnis Indonesia Group <i>Act. General Manager IT — Full-time</i> Nov 2024 – Dec 2025	• Led IT strategy and delivery covering infrastructure, DevSecOps, application development, and digital platforms across media group companies. • Oversaw implementation and enhancement of enterprise systems including Oracle Fusion ERP, HRIS/ESS, and internal collaboration platforms. • Managed cross-functional teams (±20 staff) and external vendors to deliver secure, scalable solutions aligned with business priorities. • Drove digital transformation of external, high-traffic media platforms including Data Indonesia, Hype Abis, Context.id, and Bisnis.com.
Bank QNB Indonesia <i>Project Services Manager — Full-time</i> Jun 2023 – Nov 2024	• Led end-to-end release management for enterprise banking systems in a highly regulated environment. • Played a key role in the ISO 20022 (MT-to-MX) migration, overseeing release readiness, cutover planning, rollback strategy, and post-release validation. • Coordinated development, QA, infrastructure, security, and business teams to ensure compliant and stable production releases. • Strengthened release governance and reduced operational risk during major system changes.
Tech Mahindra <i>Project Manager — Full-time</i> Sep 2022 – Jun 2023	• Managed delivery of enterprise and telco technology projects for regional clients. • Acted as primary liaison between client stakeholders, technical teams, and offshore delivery units. • Ensured scope control, timeline adherence, and quality delivery using Agile and hybrid methodologies.
Bank UOB Indonesia <i>Project Release Manager — Full-time</i> Jul 2020 – Sep 2022	• Delivered multiple digital banking initiatives, including mobile features and customer-facing platforms. • Led cross-team coordination for UAT, security review, and production deployment. • Improved delivery governance and cross-functional collaboration across IT and business units.

Sinarماس Land <i>Project Manager — Full-time</i> Mar 2015 – Jul 2020	- Managed IT projects supporting enterprise and property business operations. - Delivered custom portfolio management, pricing, and reporting systems integrated with SAP and Power BI. - Strengthened project documentation, governance, and stakeholder alignment.
Mastersystem Infotama <i>Application Developer — Full-time</i> Jan 2011 – Mar 2015	- Supported system implementation, integration, and infrastructure projects for multiple enterprise clients, assisting in deploying enterprise systems and coordinating technical requirements alongside senior consultants. - Gained strong exposure to enterprise IT environments, vendor-based delivery models, and client-facing project execution.

SELECTED PROJECT PORTFOLIO

A detailed selection of projects delivered throughout my career, organized by employer.

External News Portal Development — *Bisnis Indonesia* | 2025 | Team Size: 10

- Led end-to-end development of external news portals: Data Indonesia, Hype Abis, Context.id, and Bisnis.com.
- Managed requirements gathering, task assignment, developer supervision, release coordination, and executive reporting to the President Director.

Internal Enterprise Applications (Module Development & Management) — *Bisnis Indonesia* | 2025 | Team Size: 105

- Led integration and customization of Oracle Fusion ERP for enterprise resource planning.
- Delivered subsidiary management (Jago Anak Usaha), a centralized printing management system, and Big Forum (internal corporate collaboration platform).
- Developed and managed the HRIS & Employee Self-Service (ESS) modules, the BigKarier career portal, and the Jibi business-networking platform, plus MIP & ESS rollouts for Solopos and AGP Group.

QFT (QNB Fund Transfer) & MT-to-MX Migration — *Bank QNB Indonesia* | 2024 | Team Size: 8

- Enhanced the payment interface to the ISO 20022 global standard, moving from the legacy MT format to the richer, structured MX format.
- Managed vendor communication, project scope, stakeholder alignment, and delivery across the banking technology landscape.

Trade Finance Application — *Bank QNB Indonesia* | 2024 | Team Size: 10

- Delivered a platform to electronically initiate, manage, and track trade-finance instruments — Letter of Credit issuance, import financing, document management, and shipment tracking.
- Coordinated vendor delivery, scope definition, and stakeholder communication throughout.

Corporate Portal Upgrade (qnb.co.id) — *Bank QNB Indonesia* | 2023 | Team Size: 10

- Upgraded the enterprise information portal from SharePoint 2013 to SharePoint 2016.
- Managed vendor coordination, scope definition, and stakeholder communication for the upgrade.

SWIFT Transaction Screening Service — *Bank QNB Indonesia* | 2023 | Team Size: 10

- Delivered a fraud-screening and payment-control solution on a single portal, migrating from a legacy application.
- Owled project planning, budgeting, resource allocation, progress tracking, and stakeholder reporting; coordinated testing to ensure the migrated application met all requirements.

OutSystems Branch Workflow — *Bank QNB Indonesia* | 2023 | Team Size: 10

- Delivered a low-code workflow for branch-to-head-office instructions covering account opening, telegraphic transfers, payment methods, and customer data updates.
- Defined scope, developed the project plan, managed risk and budget, and reported progress to stakeholders.

User Access Review — *Bank QNB Indonesia* | 2023 | Team Size: 10

- Delivered a secure user-access review and approval workflow (registration, submission, initial review, detailed review, approval/denial).
- Managed vendor communication, project planning, risk, budget, and stakeholder reporting.

Project Portfolio Management (PPM) — Budget, Capex & Progress Tracking — *Bank QNB Indonesia* | 2023

- Owned annual budget planning, periodic monitoring, and Capex tracking (estimates through approval and year-end review).
- Ran monthly portfolio reviews with an integrated dashboard, gathering strategic goals and new project ideas and presenting portfolio status for stakeholder approval.

AD & AMS Transition — IBM to Tech Mahindra — *Tech Mahindra (IOH)* | 2023 | Team Size: 30

- Led the application-development transition project from an external vendor to an in-house team, covering assessment, due diligence, knowledge transfer, forward/reverse shadowing, and ongoing support and stabilization.

Fleet Management System — *Tech Mahindra (IOH)* | 2022 – 2023

- Delivered an IoT-enabled fleet platform: real-time asset tracking, automated trip and expense management, analytics and alerting, plus an integrated driver app for task management, navigation, and SOS.
- Managed requirement changes via formal change-request documentation and daily status reporting to leadership.

TMRW Auto-Save — *Bank UOB Indonesia* | 2021 – 2022 | Team Size: 6

- Delivered an AI-driven auto-save feature that analyzes account activity, income, and upcoming expenses to move surplus funds into savings automatically.
- Owned scope, cross-division coordination, technical workarounds (infrastructure, security, database), and full project documentation (func/tech specs, UAT, change requests, security checklist).

TMRW Chatbot (Digital Services 2.0) — *Bank UOB Indonesia* | 2021 – 2022 | Team Size: 6

- Delivered a smart chatbot that routes customer chats to the right support team, with chat-history visibility and contextual on-screen guidance.
- Managed scope, cross-division delivery, technical workarounds, and full project documentation.

E-Commerce Portal — *Aeon Credit Service* | 2021 – 2022 | Team Size: 3

- Owned documentation (timelines, functional/technical specs, UAT scripts, MOM, business specifications) and end-to-end testing against requirements.

Aeon Fast (Mobile App) — *Aeon Credit Service* | 2019 – 2021 | Team Size: 4

- Delivered a mobile credit-financing application as Project Manager / System Analyst.
- Coordinated cross-department requirements, developer scheduling, and technical workarounds across framework, infrastructure, and licensing.
- Owned full documentation and end-to-end testing.

Project Online Custom (Project Portfolio Management) — *Sinarmas Land* | 2017 | Team Size: 5

- Delivered a project-monitoring platform with a dynamic Gantt chart, status dashboard, mass-update workflow, KPI scoring, and Power BI integration for management reporting, including S-curve and portfolio summary reports.

E-Pricelist — *Sinarmas Land* | 2018 | Team Size: 6

- Delivered a standardized pricing engine for unit/building/land pricing with a multi-level approval workflow, integrated with SAP Sales & Distribution and Coretem.
- Owned solution scoping, developer coordination, documentation, and end-to-end testing, plus infrastructure and access coordination.

Project Management Platform (Samakta Mitra) — *Sinarmas Land* | 2018 | Team Size: 3

- Delivered project task, document, and health-tracking modules as Project Manager / System Analyst / Developer, including ongoing maintenance, bug fixes, and change requests.

HC Document Center — *Sinarmas Land* | 2015 | Team Size: 1

- Delivered SharePoint-based employee mutation and contract document management across the full project lifecycle in an Agile environment; standardized deployment procedures.

Corporate Portal (Sinarmas Land) — *Sinarmas Land* | 2015 | Team Size: 1

- Delivered the employee portal covering attendance, corporate profile, and stock-price information.
- Owned requirements analysis, enhancement delivery, and deployment documentation across the project lifecycle.

Knowledge Management (KM) Portal — *Mastersystem Infotama* | 2014 | Team Size: 2

- Delivered document management and approval workflows; resolved production bugs, built new sites on request, and produced user and project documentation.

SharePoint Portal — *Mastersystem Infotama (Client: PT Shopie Paris)* | 2014 | Team Size: 3

- Built the chat and announcement modules and populated missing portal content as SharePoint Developer.

SharePoint Portal, Reporting & Dashboard — *Mastersystem Infotama (Client: PT Bukit Asam)* | 2014 | Team Size: 2

- Built SharePoint modules and SSRS reports; analyzed legacy queries and re-applied them to the new system.

SharePoint 2010 to 2013 Migration (Document Management) — *Mastersystem Infotama (Client: Bank Mandiri)* | 2014 | Team Size: 2

- Migrated the document management platform from SharePoint 2010 to 2013 via backup/restore, validated all pages post-migration, and documented the project.

On-Dealer Application (ODA) — *Mastersystem Infotama (Client: PT Astra Honda Motor)* | 2013 | Team Size: 5

- Owned technical documentation, the user manual, dealer-application approvals, and production bug fixes.

SharePoint Portal & ESS Implementation — *Mastersystem Infotama (Client: PT SERA / Astra Group)* | 2013 | Team Size: 3

- Built SharePoint modules including the clock-in/clock-out feature and populated missing portal content.

Corporate Portal (bi.go.id) — *Mastersystem Infotama (Client: Bank Indonesia)* | Jan – Mar 2013 | Team Size: 4

- Built and maintained portal modules covering Monetary Policy, Financial System Stability, Payment Systems, Regulations, Publications, and Statistics; led bug-fixing as team leader.

Sales Mobile App (Android) — *Mastersystem Infotama (Client: Honda Muggen)* | 2011 – 2012 | Team Size: 3

- Built an Android sales-support app providing car and model information as Mobile Developer.
